

T: I'm interested in the game of golf or the game of football, I'm not interested in dance performing on stage.

Now if I were to look and say, that's really good dancing, or that's a good performance -- but to say I am interested in it. That's wouldn't to be true.

But, if you go to Bangkok, and you want to see traditional Thai dancing, there is one place to go. Because, the dancers are superb. Their movements are beautiful. OK?

And this is the Oriental hotel, just close the river, they have a dinner show. Now I been all over Thailand, and I've seen a show many, many times, but that show is the difference between black and white in the shows.

S: ブラック オア ホワイト？

T: Yes. It's not.. Well, The kind of close that this one is, is a little better, this is here, and all others are down here. It is just superb. It is what you really want to see.

If you seen other shows first, you say "Oh! Hey! This is interesting. This is a different type of dancing. This is very nice. I'm very glad that I came here.

But if you've seen the best show first, you want to go to the Oriental, in your eye, you know what they are doing. You see the other shows, you would say "what they are doing? what they are doing?"

Yes.
